

Shape Change

Shape change comes in a variety of forms, including [druid](#) shape change, lycanthrope shape change, and the *shape change* spell. They vary in nature, and are not the same as polymorph (e.g. *polymorph*, *polymorph self*, monster polymorph).

Dying when shape changed

Unless the ability explicitly states so, the creature does not change form upon death.¹⁾

Whether a shape-changed creature can be raised from the dead by *raise dead* or *resurrection* depends on its original form. For example, a human druid who died in bat form could be raised, but an elven or half-orc who died in human form could not.²⁾ When the creature is raised, it will remain in the form it died in (including wounds and poison, as normal, unless the means used to raise state otherwise).

¹⁾

This is the same ruling we have for polymorph.

²⁾

Remember that elves and half-orcs can not be brought back by *raise dead* or *resurrection*, only a *rod of resurrection*, *wish*, or similar. See [Death](#) for more info.
